GETTING ON THE INTERNET

WAYS TO ACCESS THE INTERNET WITH A FOCUS ON USING A BROWSER

Firefox, Safari, and Internet Explorer are popular browsers, which we use to access websites like Google.

What is a browser, though? How do we use one? How are the major browsers similar? How are they different?

This is a beginner course with no prerequisite knowledge.

Thursday June 13 2013, 12 PM - 1 PM

Shaun Luttin is a Microsoft Certified Professional Developer. He builds websites and provides technical support on Salt Spring.

Tech Cafe Internet Technology Stream
Getting on the Internet; A Look at the eBook;
