Tech Café Series

SEARCHING THE INTERNET

WAYS TO SEARCH THE INTERNET WITH A FOCUS ON USING GOOGLE

Google is a search engine that enables people to find websites on the Internet.

What is a search engine, though, and how does it differ from the Internet?

In addition to basic theory, we will teach basic search strategies, the anatomy of the results page, and some advanced search.

This is an intermediate level course that expects knowledge of accessing the Internet.

Thursday July 11 2013, 12 PM - 1 PM

Shaun Luttin is a Microsoft Certified Professional Developer. He builds websites and provides technical support on Salt Spring.

Tech Cafe Internet Technology Stream Getting on the Internet; Searching the Internet; more coming soon.
